

Pre-treatment estimate: Avoid surprises with a free estimate of your dental costs

We'll do whatever it takes and then some.

Reasons you might want a pre-treatment estimate:

- If you are having extensive dental work
- To ensure a procedure is covered
- To see if you will exceed your maximum
- If you need to plan your payment in advance

Make informed decisions about your dental care

If you are thinking about having extensive dental work, you should know about a free service Delta Dental provides to its enrollees called a *pre-treatment estimate* or a *predetermination of benefits*.

A pre-treatment estimate is particularly useful for more costly procedures such as crowns, wisdom tooth extractions, bridges, dentures or periodontal surgery. When your dentist requests a pre-treatment estimate from Delta Dental, you and your dentist will receive an estimate of your share of the cost and how much Delta Dental will pay — before treatment begins.

You can ask your dentist to get a pre-treatment estimate for any procedure, but this service is specifically designed to help estimate the costs of an extensive treatment plan, especially those that are expected to exceed \$300.

Any service may be sent for a pre-treatment estimate if you would like an advance breakdown of the charges and coverage.

How does a pre-treatment estimate work?

Your dentist sends Delta Dental a proposed treatment plan, along with any necessary x-rays. We then check to be sure

the services are covered by your dental plan. Some dental work may be limited or excluded by your plan, and you will want to know exactly what services are covered before you proceed with treatment. We also calculate how any deductibles, coinsurance and dollar maximum limits might affect your share of the cost. You and your dentist then receive an estimate of the amount we will pay for approved services and the amount you will be responsible for. Pre-treatment estimates usually take about two weeks.

Why are pre-treatment estimates useful?

Unless the need is urgent, it is worthwhile to find out how much of your treatment is covered, allowing you to plan in advance for your portion of the dental bill.

Please review your Evidence of Coverage, Summary Plan Description or Group Dental Service Contract for specific details about your plan.

Check out our new wellness resource

The SmileWay Wellness Challenge provides recommendations for how to participate in the program by taking advantage of the extensive resources available on our SmileWay Wellness site.

1. Review your habits

Take one or both of our interactive quizzes to see if you are at risk for cavities or gum (periodontal) disease. When you receive your quiz results, you can sign up to receive customized emails based on your risk level.

2. Get educated

Read any of the 100+ articles on dental health-related topics – everything from acid reflux to x-rays. We also have a variety of short videos on specific topics.

3. Stay informed

Receive regular dental health tips and information from us by:

- a. signing up for the *Grin!* newsletter (emailed quarterly)
- b. connecting with us on Facebook
- c. following us on Twitter

All of this is accessible from our SmileWay Wellness site at mysmileway.com. Bookmark the page so you can refer to it frequently.

Questions about oral health?

If you've got questions about oral health, be sure to check out our **SmileWay Wellness site** for answers. We've compiled an extensive library of articles on oral health topics from amalgam fillings to x-rays and just about every oral health topic in between.
