COMMUNITY SCHOOLS of Inyo County

California Community Schools Partnership Program (CCSPP) Planning Grant (2023-2025)

A Community School strategy transforms a school into a place where students, families, educators, and the community work together to create the conditions all students need to thrive.

There is no one-size fits all model. Every community school is different because every community is different. Figuring out what it looks like in your community starts by getting everyone involved with a needs and assets assessment.

School Districts in the West County Consortium

Every community school is different. What will yours be like?

Inyo County Community Schools Coordinator:
Serena Johnson

What is a Community School?

It is a whole-child model for equitable school improvement.
A Community School stands on Four Pillars.

What the Four Pillars of Community Schools Look Like in Action

Expanded Learning Time and Opportunities
Enrichment activities emphasize real-world learning and community problem solving.
After-school, weekend, and summer programs provide academic instruction and individualized support.

Active Family and Community Engagement
Promoting interaction among families, administration, and teachers helps families to be more involved in the decisions about their children's education.
Schools function as neighborhood hubs. There are educational opportunities for adults, and family members can share their stories and serve as equal partners in promoting student success.

Collaborative Leadership and Practice
Parents, students, teachers, principals, and community partners build a culture of professional learning, collective trust, and shared responsibility using strategies such as site-based leadership teams and teacher learning communities.

Integrated Student Supports
A dedicated staff member coordinates support programs to address out-of-school learning barriers for students and families.
Mental and physical health services support student success.

Newsletters will be posted monthly.

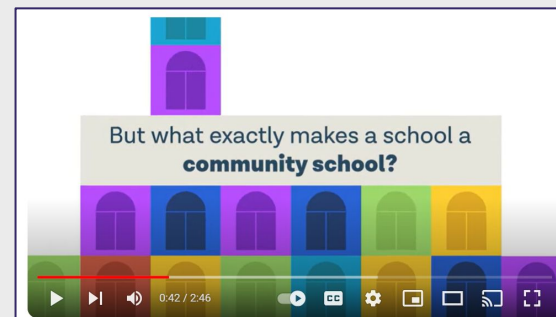

Community Schools are evidence-based:

Sufficient research exists to meet the Every Student Succeeds Act (ESSA) standard for an evidence-based intervention.

Together, the four pillars result in improved:

- Attendance
- Student Achievement
- Behavior
- School Climate
- Student Attitudes
- Graduation Rates
