WHAT'S NEXT?

As school lets out for summer vacation, Serena and Jenna will be closing various surveys and digging into some preliminary data analysis. Five districts with eleven schools means there is no shortage of input to start sifting through.

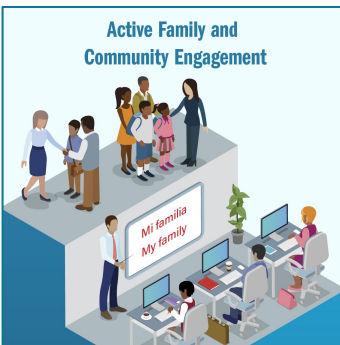

In mid-June, they'll travel to southern California for a Community Schools Summit to network with coordinators throughout the state, share stories from Inyo County, and bring home new insights and strategies for the fall.

The steering committees and school teams will be on pause, so June would be a great time to reach out and say hello!

Pillar Highlight:

ACTIVE FAMILY AND COMMUNITY ENGAGEMENT

According to California Community Schools, this pillar involves actively tapping the expertise and knowledge of family and community members to serve as true partners in supporting and educating students.

In addition to sharing their skills and knowledge, this pillar emphasizes providing learning opportunities for family members and inviting them into spaces of shared leadership.

Look for the specific questions in the surveys that ask what expertise you have to share and what you'd like to learn more about!
