Join the Eastern Sierra Watershed Program!

WHO WE'RE LOOKING FOR

Are you an educator, scientist, or outdoor enthusiast passionate about nature and teaching? We're seeking motivated individuals to become docents for the Eastern Sierra Watershed Program. This is a fantastic opportunity to inspire youth, work outdoors, and contribute to hands-on science education.

ABOUT THE PROGRAM

The Eastern Sierra Watershed Program is a cooperative initiative run by the Eastern Sierra Institute for Collaborative Education, Inyo County Office of Education, local resource agencies, and Inyo County Schools. This program gives students field study opportunities throughout Inyo County, engaging them in scientific inquiry and environmental stewardship.

Students participate in small-group, hands-on studies led by trained docents. As a docent, you'll play a critical role in guiding these activities, making complex scientific concepts accessible and exciting for students.

8th Grade Lower Owens River Study Focus

- Aquatic invertebrate identification
- Wildlife observations
- Invasive plant surveys

These activities help students explore stream morphology, biodiversity, and the impacts of invasive species along the Lower Owens River.

DATES & COMMITMENT

- Training & Prep Days: October 24th & 25th, 2024
- Teaching Days: November 4th – 8th, 2024 (Full-day sessions)
- Location: Bishop, CA

COMPENSATION

- \$100 per day

Docents will receive training in teaching techniques, scientific inquiry, and the specific activities they will lead. No prior experience is required—just a passion for learning and teaching!

HOW TO APPLY

Send your resume to Paxton Rountree-Jablin at prountree@inyocoe.org.

For more information on the program and future opportunities, visit the Inyo County Office of Education's Outdoor Ed website.

Join us to inspire the next generation of environmental stewards and explore the beauty of the Owens River!
